### Download/View reports

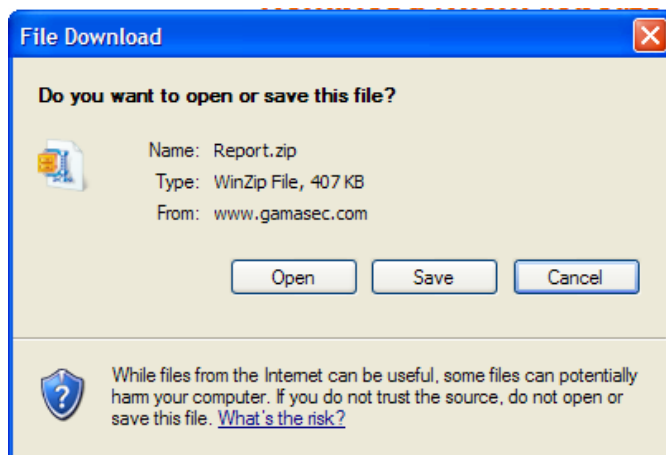

Protocol	Target	Port	Date	Actions
http	www.duanemorris.com.	80	3/26/2008 8:37:13 PM	<input type="button" value="Download"/> <input type="button" value="View"/>

**Click the Download button to file download the report on your desktop**

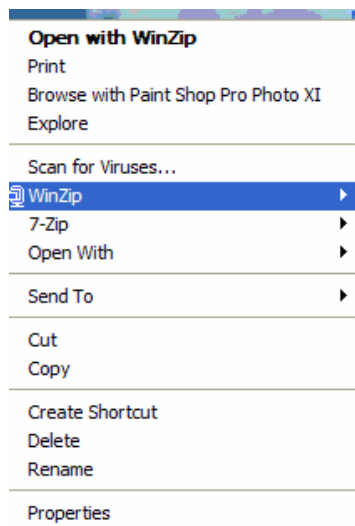

Note:

The Free Trial report contains only the "Executive Summary" and partial "Technical Details" sections of the full vulnerability assessment report; the PDF version of the Free Trial report contains the watermark "GamaScan Free Trial" on each page. A full vulnerability assessment report including the "Vulnerabilities Findings" section and without a watermark is available upon purchasing the service.

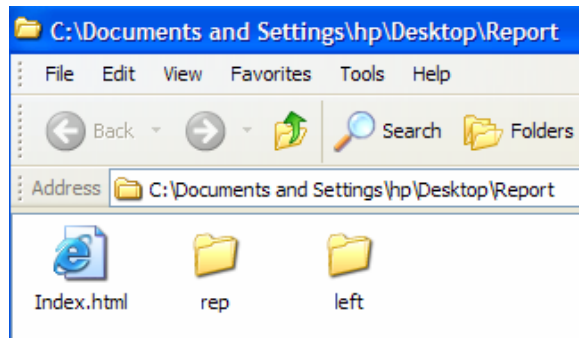

Step 4 : Click on the save button to save your report Zip File on your desktop

Step 5 : To unzip a file, right-click the report file, and then click Extract on the shortcut menu

**Step 6 : Open the new report file on desktop and open it by double-clicking on the Index HTML file, The report will be open through your browser**

**Step 7 : Click on the Open button to see the full report**

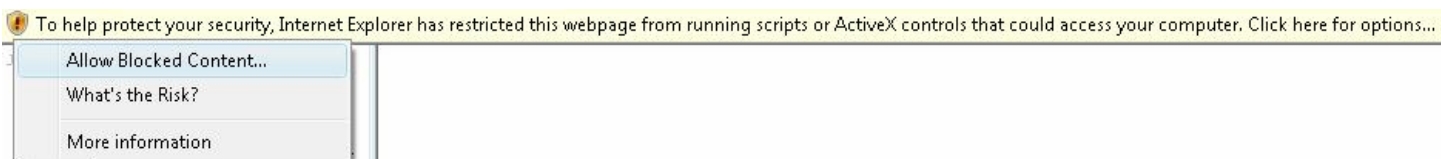

## Web Vulnerability Assessment Report

Target Scanned:	www.Scan-Your-Eshop.com
Report Generated:	Wed Nov 29 19:41:17 2006
Identified Vulnerabilities:	219
Risk Level:	High

[Click her to Open the full Report](#)

**Step 8: Double click on the Allow Blocked Content to open the report**

**Step 9 : In the technical part of the report, click the Plus (+) signs to expand the vulnerabilities findings**
